

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A hand-held electronic device, comprising:
  - a housing having a display screen on a first portion;
  - a second portion of said housing having a number pad thereon, said second portion  
coupled to said first portion ~~display screen~~ such that said ~~display screen~~ first portion folds  
upward to reveal said display screen and said number pad; and
  - a keyboard underneath said number pad such that said number pad folds out sideways  
with respect to the housing about one hinge axis to reveal an entire said keyboard.
  -
2. (Original) The device of claim 1 further comprising at least one speaker to transmit  
audio information.
3. (Original) The device of claim 1 further comprising at least one microphone for  
receiving audio data.
4. (Original) The device of claim 1 wherein said keyboard is a qwerty keyboard.
5. (Original) The device of claim 1 wherein said keyboard is a game pad keyboard.
6. (Original) The device of claim 5 wherein said game pad keyboard comprises a  
directional pad.

7. (Original) The device of claim 5 wherein said game pad keyboard comprises at least one programmable action button.

8. (Original) The device of claim 5 wherein said game pad keyboard comprises at least one trigger.

9. (Original) The device of claim 5 wherein said game pad keyboard comprises a slider throttle control.

10. (Currently Amended) The device of claim 1 wherein said number pad folds sideways to a right side with respect to the housing.

11. (Currently Amended) The device of claim 1 wherein said number pad folds sideways to a left side with respect to the housing.

12. (Original) The device of claim 1 wherein said number pad is coupled to said display screen with a hinge.

13. (Original) The device of claim 1 further comprising at least one function key that controls the basic functions of the device.

14. (Original) The device of claim 1 wherein said number pad is coupled to said keyboard with a hinge.

15. (Original) The device of claim 1 further comprising a camera.

16. (Currently Amended) A hand-held electronic device, comprising:

a housing having a display screen for displaying on a first portion, the display screen configured to display text and graphical information;

a second portion of said housing having a number dial pad thereon, said second portion coupled to said first portion display screen such that said display screen first portion folds upwards to reveal said number dial pad and said display screen, said number dial pad and said second portion having a substantially similar width dimension;

a keyboard underneath said number dial pad such that the second portion said number dial pad folds out sideways with respect to the housing about one hinge axis to reveal said keyboard;

at least one speaker to transmit audio information; and

at least one microphone for receiving audio data.

17. (Original) The device of claim 16 wherein said keyboard is a qwerty keyboard.

18. (Original) The device of claim 16 wherein said keyboard is a game pad keyboard.

19. (Original) The device of claim 18 wherein said game pad keyboard comprises a directional pad.

20. (Original) The device of claim 18 wherein said game pad keyboard comprises at least one programmable action buttons.

21. (Original) The device of claim 18 wherein said game pad keyboard comprises at least one trigger.

22. (Original) The device of claim 18 wherein said game pad keyboard comprises a slider throttle control.

23. (Currently Amended) The device of claim 16 wherein said number dial pad folds sideways to a right side with respect to the housing.

24. (Currently Amended) The device of claim 16 wherein said number dial pad folds sideways to a left side with respect to the housing.

25. (Original) The device of claim 16 wherein said number dial pad is coupled to said display screen with a hinge.

26. (Original) The device of claim 16 further comprising at least one function key that controls the basic functions of the device.

27. (Original) The device of claim 16 wherein said number dial pad is coupled to said keyboard with a hinge.

28. (Original) The device of claim 16 further comprising a camera.

29. (Currently Amended) A hand-held electronic device, comprising:

a housing having a display screen for displaying on a first portion, the display screen configured to display text and graphical information;

a second portion of said housing having a number dial pad thereon, said second portion coupled to said first portion, wherein said first portion folds upwards to reveal said number dial pad and the display screen; and

a game pad keyboard underneath said number dial pad and completely covered when the dial pad is in a closed position, wherein the entire second portion such that said number dial pad folds out sideways with respect to the housing about one hinge axis to an open position to reveal said game pad keyboard.

30. (Original) The device of claim 29 further comprising at least one speaker to transmit audio information.

31. (Original) The device of claim 29 further comprising at least one microphone for receiving audio data.

32. (Original) The device of claim 29 wherein said game pad keyboard comprises a directional pad.

33. (Original) The device of claim 29 wherein said game pad keyboard comprises at least one programmable action buttons.

34. (Original) The device of claim 29 wherein said game pad keyboard comprises at least one trigger.

35. (Original) The device of claim 29 wherein said game pad keyboard comprises a slider throttle control.

36. (Currently Amended) The device of claim 29 wherein said number dial pad folds sideways to a right side with respect to the housing.

37. (Currently Amended) The device of claim 29 wherein said number dial pad folds sideways to a left side with respect to the housing.

38. (Original) The device of claim 29 further comprising at least one function key that controls the basic functions of the device.

39. (Original) The device of claim 29 wherein said number dial pad is coupled to said game pad keyboard with a hinge.

40. (Original) The device of claim 29 further comprising a camera.

41. (Currently Amended) A hand-held electronic device, comprising:  
a housing having a display screen on a first portion;

a second portion of said housing having an input member thereon, said second portion coupled to said first portion and having a width dimension substantially the same as a corresponding width dimension of the input member, said first portion rotates about a first hinge axis to reveal said input member and said display screen,~~said input member comprising a number pad and a keyboard;~~

~~—said input member being coupled to said display screen such that said display screen folds upward to reveal said display screen and said number pad; and~~

said input member hingedly coupled to the second portion of said housing, wherein said input member is rotatable about one second hinge axis perpendicular to the first hinge axis to expose a keyboard being located underneath said input member. ~~said number pad such that said number pad folds out sideways to reveal said keyboard.~~

42. (Original) The device of claim 41 further comprising at least one speaker to transmit audio information.

43. (Original) The device of claim 41 further comprising at least one microphone for receiving audio data.

44. (Original) The device of claim 41 wherein said keyboard is a qwerty keyboard.

45. (Original) The device of claim 41 wherein said keyboard is a game pad keyboard.

46. (Original) The device of claim 45 wherein said game pad keyboard comprises a directional pad.

47. (Original) The device of claim 45 wherein said game pad keyboard comprises at least one programmable action button.

48. (Original) The device of claim 45 wherein said game pad keyboard comprises at least one trigger.

49. (Original) The device of claim 45 wherein said game pad keyboard comprises a slider throttle control.

50. (Currently Amended) The device of claim 41 wherein said number pad folds sideways to a right side with respect to the housing.

51. (Currently Amended) The device of claim 41 wherein said number pad folds sideways to a left side with respect to the housing.

52. (Original) The device of claim 41 wherein said number pad is coupled to said display screen with a hinge.

53. (Original) The device of claim 41 further comprising at least one function key that controls the basic functions of the device.

54. (Cancelled)

55. (Original) The device of claim 41 further comprising a camera.
